LEARNING OUTCOMES

- Identify, assess, and diagnose patients with opioid use disorder while considering severity, chronicity, individual characteristics, and psychiatric and medical comorbidities.
- Develop an individualized, patient-centered treatment plan including negotiating treatment goals by evaluating appropriate medication-and psychosocial-based treatment options.
- Monitor Progress and modify treatment plan based on patient needs and progress toward treatment goals.
- Implement best practices for office systems including team-based care to support treatment with medications for opioid use disorder.
- Examine misconceptions, stigma, and complexities (bioethical, social, clinical, public health) associated with opioid use disorder and the use of medications to treat opioid use disorder.

Dr. Matthew Torrington is doing another Substance Use Disorder/Opioid Use Disorder (SUD/ODU) training that targets medical providers and meets the new eight (8-hour) general training for prescribing Buprenorphine. This online training will be held on **Saturday, February 10, 2024** via Zoom, CMEs and other CEUs provided, sponsored by ASAM and hosted by Azusa Pacific University (APU), four (4) hours long with links to the companion online 4 hours to meet the requirements, and is **FREE**.

This blended course combines four (4) hours of online learning followed by four (4) hours of live-virtual learning. The live-virtual portion of the course builds off content delivered in the online portion. Course faculty are expecting learners to complete the online portion before attending the live portion. You must complete both portions to receive credit for the course. ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.

L.A. Care Health Plan (L.A. Care) providers and other physicians are highly encouraged to attend this online course via Zoom on Treatment of Opioid Use Disorder and the education needed to prescribe Buprenorphine with presenter Dr. Matthew Torrington, Addiction Medicine Physician. Physician Assistants (PAs), Nurse Practitioners (NPs), Registered Nurses (RNs), and other healthcare professionals are invited as well.
