Medi-Cal Summary Report

1 The first tab is the summary tab for the practice, clinic, or IPA.

2 Look for the Column "Measure". You can also filter alphabetically.

3 The Column "Rate" shows your performance on a given measure. Ex: The current rate for WCC is 4.14%. You can also sort from smallest to largest.

4 The Column "Threshold # Hits to Meet" shows the # of services needed to meet the threshold. Ex: For WCC, it is 84.

5 The Column "Benchmark # Hits to Meet" shows the # of services needed to meet the benchmark. Ex: For WCC, it is 244.

Base Measure	Measure	Total Eligible	Met	Not Met	Rate	P4P Threshold (50th Percentile)	Threshold # Hits to Meet	P4P Benchmark (95th Percentile)	Bench Mark # Hits to Meet
Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents - Counseling for Physical Activity	Weight Assessment & Counseling for Nutrition and Physical Activity for Children/Adolescents - Counseling for Physical Activity	521	6	515	1.15%	33.13%	84	88.4%	244

Medi-Cal Provider Level Report

1 The second tab is the provider level tab for the clinic or IPA (n/a for solos or small group practice)

2 Filter by "License No" or "Last Name" and/or "First Name" for provider-specific data

3 The Column "Rate" shows a provider's performance on a given measure. Ex: Dr. Grey has a 100% CCS Rate.

4 The Column "Threshold # Hits to Meet" shows the # of services needed to meet the threshold. Ex: Dr. Yang needs 6 hits to meet the CDC eye exam threshold.

5 The Column "Benchmark # Hits to Meet" shows the # of services needed to meet the benchmark. Ex: Dr. Yang needs 45 hits to meet the AWC benchmark.

Medi-Cal Measure Level Report

5 To contact members for follow-up, "member" name, phone number and DOB are provided.

3 Filter by "License No" or Provider's "Last Name" and/or "First Name" for a provider-specific Gaps in Care List.

2 Filter for "Compliance Status" = "NOT MET" to identify members requiring follow-up

4 For providers that practice at multiple sites, filter by street address to identify the site where the member is a patient

1 Each measure has its own tab, with member details for follow-up. Ex: The current tab is for WCV

Adding Test Measures to UM Detail Report

For Measurement Year 2023, we are adding 4 HEDIS measures to the UM POR Detail

- Medi-Cal:
 - Follow-Up After Emergency Department Visit for Substance Use (FUA)
 - Follow-Up After Emergency Department Visit for Mental Illness (FUM)
 - Transitions of Care (TRC) – Patient Engagement After Inpatient Discharge & Medication Reconciliation Post Discharge
- L.A. Care Covered:
 - Follow-Up After Emergency Department Visit for People With Multiple High-Risk Chronic Conditions (FMC)
 - Transitions of Care (TRC) – Patient Engagement After Inpatient Discharge & Medication Reconciliation Post Discharge
- Medicare Plus:
 - Follow-Up After Emergency Department Visit for People With Multiple High-Risk Chronic Conditions (FMC)
 - Transitions of Care (TRC) – Patient Engagement After Inpatient Discharge & Medication Reconciliation Post Discharge

Test Measures UM Summary Report

- UM test measures will appear in the following 2 reports:
 - HEDIS POR
 - UM Member Details
- Below is a screen print of our current UM Summary report:

Plan All-Cause Readmissions (PCR)					
Measure Id	Count of Index Stays	Count of 30 Day Readmissions	Observed Readmissions Rate	Expected Readmissions Rate	Observed to Expected Ratio
PCR	0	0	0.00%	0.00%	0.00

Emergency Department Utilization (EDU)					
Measure Id	Observed ED Visits	Observed ED Visits/1000 Members	Expected ED Visits	Expected ED Visits/1000 Members	Observed to Expected Ratio
EDU	4	285.71	1.93	137.53	2.08

Acute Hospital Utilization (AHU)					
Measure Id	Observed Discharges	Observed Discharges/1000 Members	Expected Discharges	Expected Discharges/1000 Members	Observed to Expected Ratio
AHU	0	0.00	0.36	26.01	0.00

- The goal is to minimize hospital and ED visits for routine non-urgent care so the lower “Observed to Expected Ratio” the better.

Test Measures UM Details

- The UM Member Details displays the discharge date and other data points that may help providers better care for and follow-up with their patients.
- However, since these are traditionally HEDIS measures, they will remain on the HEDIS POR Summary report (not the UM POR Summary).

Objective

- Learn how to access and use tailored reports generated by L.A. Care to help you close care gaps within the following HEDIS measures:
 - W30: Well-Child Visits in the First 30 Months of Life
 - CIS-10: Childhood Immunization Status Combination 10
 - IMA-2: Immunizations for Adolescents Combination 2
 - BLS: Blood Lead Screening in Children
- Review examples of each report

W30 Report

- L.A. Care's W30 Report is available for you to help increase the number of well-child visits completed. Several visits are required during the first 30 months of life and provide the space for other preventive services to take place (ex: vaccines, developmental screenings).
- Report consists of two tabs:
 - **Tab 1: W30 +6, Well-Child Visits during 0-15 months**
 - **Tab 2: W30 +2, Well-Child Visits during 15-30 months**
- Each tab displays eligible patients currently due for well-child visits within each measure.

W30 Report: Report Details

- Each report details:
 - number of unique visits completed
 - date and age of last visit
 - *days remaining before turning 15, 24, and 30 months*
 - *date turning 15, 24, and 30 months*
- Please prioritize children approaching their 15th month or 30th month and those behind schedule.
 - For children under 4 months, ensure that visits have started.
- Use the reports to increase both W30 measure rates.
 - Thus improving your HEDIS performance and increasing your incentive award.

W30 Report: How to Access

1. Log on to L.A. Care's [Provider Portal](#).
2. Click "Reports" on the sidebar.
3. Click on the "2023" folder.
4. Click on the "Provider Opportunity Reports" folder.
5. Select the most recent month.
6. Click on the "W30" folder.
7. Download the file labeled "xxx_W30_xxx_Reports."

Missing Vaccine Report

- L.A. Care's Missing Vaccine Report consists of two unique reports available for you to help increase your childhood and adolescent immunization rates:
- **Report 1: Childhood Immunization Status**
CIS Combo 10
 - Displays patients turning two in the next 18 months, along with specific vaccines due and missing doses.
- **Report 2: Immunizations for Adolescents**
IMA Combo 2
 - Displays patients turning 13 in the next 18 months, along with specific vaccines due and missing doses.

Missing Vaccine Report: Report Details

- Each report details how many doses of each antigen are missing for each eligible patient.
 - Please prioritize immunizations for children approaching their 2nd or 13th birthday and those behind schedule.
 - For CIS-10, look at those children who will be 6-8 months and ensure they are on track for rotavirus.
- Use the reports to increase your immunization rates.
 - Thus improving your HEDIS performance and increasing your incentive award.

Missing Vaccine Report: How to Access

1. Log on to L.A. Care's [Provider Portal](#).
2. Click “Reports” on the sidebar.
3. Click on the “2023” folder.
4. Click on the “Provider Opportunity Reports” folder.
5. Select the most recent month.
6. Click on the “Missing Vaccines Report” folder.
7. Download the file labeled “xxx_CIS_xxx_Report” or “xxx_IMA_xxx_Report”.

To ensure all immunizations are accounted for, we recommend you document all shots (including historical) on [CAIR](#). The immunization reports are updated monthly.

Blood Lead Screening Report

- L.A. Care's Blood Lead Screening Report consists of active members between the ages of 6 months- 6 years who are *missing* a blood lead screening test.
- Posted monthly
- Report fulfills two requirements:
 - **LSC HEDIS Measure:** at least one lead test by age 2
 - **All Plan Letter (APL) 20-016, Blood Lead Screening of Young Children:** lead test at 12 months and 24 months and for children between 24- 72 months with no record of a lead test

Blood Lead Screening: Report Details

- Each report details:
 - date when child will be 1 or 2 years old
 - whether the child is between 12-24 months or 24-72 months
 - lack of screening between 12-24 months and 24-72 months
- Use report to anticipate screenings and to catch up on screenings.
- Use the reports to increase your LSC HEDIS rates.
 - Thus improving your HEDIS performance and increasing your incentive award.

Blood Lead Screening Report: How to Access

1. Log on to L.A. Care's [Provider Portal](#).
2. Click “Reports” on the sidebar.
3. Click on the “2023” folder.
4. Click on the “Lead APL” folder.
5. Click on the “MCLA” folder.
6. Select the most recent month.
7. Download the file labeled
“xxx_LEAD_APL_MCLA_yyyymmdd.”

REGISTRATION – NEW USERS

If this is your first time accessing L.A. Care's secure message system, Newport.lacare.org, you will be asked to create a password for the system.

The screenshot shows a web browser window with a blue header bar. On the right side of the header is the Symantec logo. Below the header is a blue banner with the text "You have received an encrypted message from L.A. Care". The main content area is white and contains a red-bordered box with the text "Please create a passphrase to secure future messages delivered to you." Below this box, there is a heading "Here are some recommendations for protecting your passphrase:" followed by a bulleted list of five recommendations. At the bottom of the form, there are two input fields: "Passphrase:" and "Confirm Passphrase:". A "Continue" button is located in the bottom right corner of the form area.

You have received an encrypted message from L.A. Care

Please create a passphrase to secure future messages delivered to you.

Here are some recommendations for protecting your passphrase:

- Use at least 8 characters for your passphrase.
- Use non-alphabetic characters such as numbers or punctuation marks.
- Use an easy to remember passphrase that you don't need to write down.
- Don't use obvious passphrases that can be easily guessed.
- Don't make your passphrase a single word.
- Don't use famous quotations.
