

NDC/UPN EDI BILLING REQUIREMENTS

In an effort to insure our providers receive appropriate reimbursement and avoid denied claims, L.A. Care Health Plan request you adhere to the following billing requirements outlined in this document when submitting a claim(s) that requires a National Drug Code (NDC) or Universal Product Number (UPN).

NDC BILLING REQUIREMENTS

When submitting a claim for a physician-administered drug in both professional and institutional clinical settings, you must bill with the appropriate 11-digit National Drug Code (NDC) number in both the CMS-1500/UB04 claim forms and/or EDI 837 transaction. In addition, you will need to provide the HCPCS code, the appropriate NDC unit measure and the units administered. Failure to submit the accurate information in the appropriate fields may result in delayed claim reimbursement or the denial of your claim.

NDC CMS-1500 PAPER CLAIM BILLING REQUIREMENTS

When billing a claim that requires an NDC Code on the CMS-1500 claim form, please use the following guidelines to submit your information. It is important to use the correct billing qualifiers and bill each requirement in the appropriate fields:

Box 24A (Shaded Area) – “N4” Qualifier and 11-digit National Drug Code (NDC)

This area will have a combination of two values entered:

- *Bytes 1 and 2* will include the Product ID Qualifier. The code ‘N4’ is used to identify an NDC number.
- *Bytes 3 – 21* will consist of the appropriate 11-digit NDC number.

NDC UB-04 PAPER CLAIM BILLING REQUIREMENTS

For paper claims submitted on the institutional *UB-04* claim form, the NDC is reported in the following:

Box 43 (Description Field) – “N4” Qualifier and 11-digit National Drug Code (NDC)

- First two positions include the Product ID Qualifier of ‘N4’ followed by the 11-digit NDC (no hyphens).
- Directly following the last digit of the NDC (no delimiter), enter the two-digit Unit of Measurement Qualifier as noted below followed by the nine-digit quantity. The nine digits consist of six digits for the whole number, followed by the three-digit decimal portion of the number.
